“IN BOURGOGNE, WHEN WE SPEAK OF A CLIMAT, WE DO NOT LOOK UP TO THE SKY, WE KEEP OUR EYES TO THE GROUND.”

Bernard Pivot, writer and President of the Support Committee

This open-air jigsaw puzzle of vines that comprises the *Climats de Bourgogne* forms an exceptional cultural landscape that has been shaped over 2,000 years of history. Nowhere else in the world has man shown such determination to so precisely and intimately links wines to the place of production. Here, every *Climat*, every plot of vines, is harvested and vinified separately, to produce wines with individual characters that bear the name of their *Climat*. Montrachet, Les Amoureuses, Les Perrières, Les Saint-Georges, Les Genevrières, Chambertin... there are more than 1,200 *Climats* from Dijon to Beaune and on to Les Maranges.

Discover this multi-faceted site that was added to the UNESCO World Heritage List on 4 July 2015.
